A MULTIDISCIPLINARY APPROACH TO CONSERVATION AND RESTORATION

TOWARDS THE EUROPEAN RESEARCH INFRASTRUCTURE FOR HERITAGE SCIENCE

www.iperionch.eu

- HS is founded on the interdisciplinary combination of knowledge from arts and humanities (conservation, archaeology, history, art history, ethics etc.), and from science and technology (chemistry, physics, mathematics, biology, anthropology, computer sciences and engineering, etc.).
- HS encompasses the science for the conservation and restoration of Cultural Heritage.

CULTURAL HERITAGE ADVANCED RESEARCH INFRASTRUCTURE -SYNERGY FOR A MULTIDISCIPLINARY APPROACH TO CONSERVATION / RESTORATION

- 13 (*Integrated Infrastructure Initiative*) project
- joined 22 European research Institutes for study and conservation of cultural heritage, by 11 EU Member States
- coordinated by Bruno Brunetti, University of Perugia

IPERION CH

INTEGRATED PROJECT FOR THE EUROPEAN RESEARCH INFRASTRUCTURE ON CULTURAL HERITAGE

- establish a permanent European Research Infrastructure for Heritage Science
- provide access to cutting-edge scientific tools for advanced diagnostics, conservation and restoration
- help structuring the pan-European scientific community of Heritage Science

- Submitted on 2014, September 2nd to INFRAIA call
- Joins more than 35 research groups from 24 partners (12 EU Member States - Belgium, Denmark, France, Germany, Greece, Hungary, Italy, Poland, Portugal, Spain, The Netherlands, United Kingdom and the USA)

IPERION CH activities

- Trans-National Access to three integrated platforms: ARCHLAB

 access to collections held by prestigious European museums
 and conservation institutions, MOLAB access to advanced
 mobile analytical equipment and expertise for in situ
 measurements; FIXLAB access to large-scale facilities.
- Joint Research: advancing the state-of-the-art of access services, facilities and tools.
- Networking: knowledge exchange, best practices, international cooperation.
- Digital data: fostering use, reuse and preservation of digital data and tools in Heritage Science (with DARIAH-ERIC).
- Impact: dissemination, communication, support to social and industrial innovation.
- Education and training: training camps and summer schools.
- Sustainability: supporting long-term activities of the EU RI.

IPERION-CH.pt

a groundbreaking infrastructure for Cultural Heritage Research

IPERION CH.pt

- Portuguese call for infrastructures closed Sept 30, 2013 with ca. 350 proposals.
- 24 proposals in SSH of which 3 in CH including IPERION CH.pt
- IPERION CH.pt (rated "class 1") was the only successful in the CH field.
- IPERION CH.pt budget about 1.5MEuro.
- Included in Portuguese national roadmap

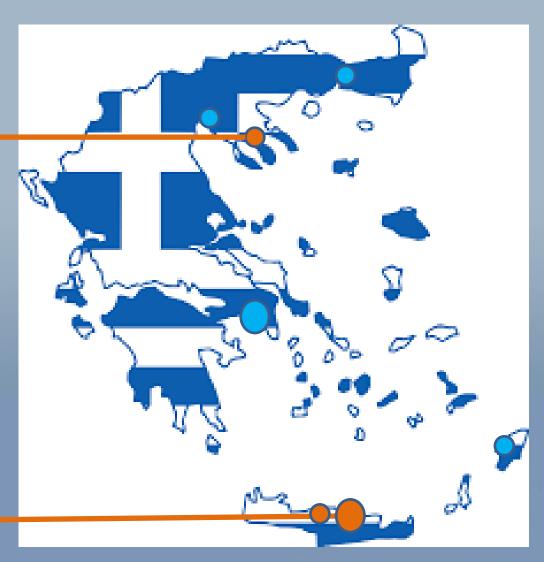

IPERION CH.gr Partners

IPERION CH.gr

as it was included in the 2014 Greek Roadmap for Research Infrastructures after proposal evaluation

Mission:

starting a distributed research infrastructure for Heritage Science in Italy – the Italian node of the RI for HS.

National main venue: Florence (OPD)

Goals:

- Provide access to national scientific community
- Reinforce Italian leadership in Heritage Science
- Provide advanced training to HS researchers
- Contribute to knowledge transfer and researchers mobility
- Contribute to dissemination and exploitation of research results
- Efficient design of European (and national) research projects
